

Not only do we make the supplements! We make the supplements **BETTER.**

SHARK CARTILAGE

90 ct

Promote Joint Health

Meta-Labs presents our new Shark cartilage Supplement. This product was obtained from shark cartilage and mucopolysaccharide, chondroitin and hyaluronic acid. Hyaluronic acid retains fluid in the cartilage tissue, creating its jelly-like consistency, and also serves to moisturize the skin well. Chondroitin and mucopolysaccharide serve joint health. Relieving low back pain, and having a wellness effect in rheumatism and inflammation of the joints.

All part wears out sooner or later. Especially those that are subject to constant friction fail particularly fast. This is same for joints in our body are joints. Our body reduces friction in them with articular fluid and cartilaginous articular surfaces. When the cartilage is worn, arthrosis occurs.

Shark cartilages contain the largest variety of forms of chondroitin sulfates compared to cartilages of vertebrates and other fish, which determines their great utility for joints, since chondroitin sulfates are responsible for the cellular structure. And we also discovered the content of a special elastoidine protein, which is well digested by human gastric juice and then used as a building material to build the cartilage tissue of our body.

Shark Cartilage helps restore the normal state of the joints. it contains large quantities glucosamine and chondroitin sulfate. These are the basic materials necessary for the construction of cartilage tissues.

Shark Cartilage is considered an excellent source of low molecular weight chondroitin sulfate. It is important for cartilage regeneration and stimulation of synovial fluid production.

Shark Cartilage may help with

- Increases muscle elasticity
- Reduces pain
- Improves joint mobility
- Reduces pain intensity
- Stimulates fat exchange
- Reduces the concentration of cholesterol in the blood.
- Promotes faster bone fusion in fractures
- Arthritis discomfort
- Pronounced anti-inflammatory effect
- Improved nutrition and increased moisture in connecting cartilage structures
- Osteoporosis
- Osteoarthritis
- Osteochondrosis
- Gout

Suggested Use

As a dietary supplement, take six (6) capsules daily, preferably in divided doses or as recommended by your health care professional.

KEEP OUT OF REACH OF CHILDREN
