

Not only do we make the supplements! We make the supplements BETTER.

# ULTRA D3-60, VITAMIN D3 (CHOLECALCIFEROL), VITAMIN A, AMLA BERRY

60 Capsules

## Ultra D3 from Metal-Labs may be taken for several reasons:

Prevention of infection. Taking vitamins can strengthen immunity. Viruses weakens the immune system. Taking a sufficient amount of these vitamins will help to avoid infection, even if some concentration of the virus enters the body.

Alleviating the general condition. Vitamins help to reduce weakness, stabilize temperature, and reduce intoxication. Due to their influence, the will patient begins to feel healthier and recovery is at a faster rate.

## Vitamin D and its second form are D3 needed in an amount of 100-500 IU daily, due to the following reasons:

Receptors of substances are in all tissues of the body, including in the respiratory organs. D and D3 improve lung function by strengthening alveolar cells suffering from infection. This effect facilitates breathing, ensures better filling of tissues with oxygen.

Partially responsible for blood sugar and vascular condition. Normalization of the first indicator and blood pressure level reduces the risk of severe disease. And maintaining the cardiovascular system prevents the likelihood of complications associated with intoxication.

Muscle tone is stimulated. This reduces the inherent weakness of the infection, a slice in the body. Vitamin D3 activates T cells in the body, which search for and destroy any intrusions of bacteria and viruses.

### Suggested Use

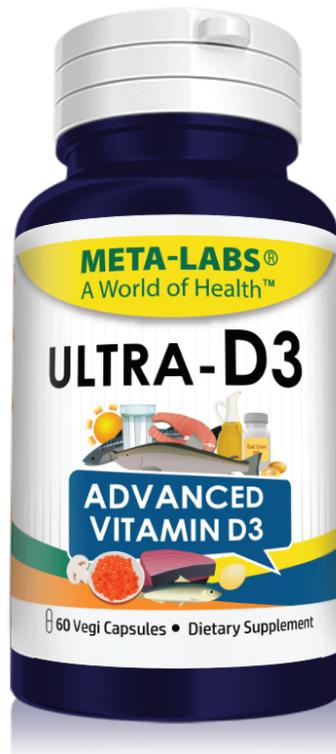

As a dietary supplement, take two (2) capsules once a day with meals, or as directed by a healthcare professional.

#### KEEP OUT OF REACH OF CHILDREN

**WARNING:** If you are pregnant, nursing, taking any medications or planning any medical procedure, consult your doctor before use. Discontinue use and consult a doctor if any adverse reactions occur.
