

Not only do we make the supplements! We make the supplements BETTER.

PU ERH TEA EXTRACT

100 MG

2 OZ

The tea product has healing properties that are still being studied. Studies have proved the beneficial effect of resin on the human body.

The main useful properties are:

- lowering blood pressure, combating hypertension;
- improvement of digestive tract operation;
- acceleration of metabolism;
- vascular strengthening in venous insufficiency, varicose veins;
- normalization of cholesterol levels;
- removal of slags, toxins;
- restoration of liver function.

In addition to the above advantages of regular use of Puer, it is worth noting its antiviral effect. Tea can be taken after a feast, it removes the negative impact of alcoholic beverages. This is only a scientifically proven benefit of tea resin today. The high content of pectin contributes to the elimination of toxins, radioactive elements, mercury, lead, pathogenic bacteria.

The composition:

- rich in amino acid
- rich in essential vitamins
- minerals source
- organic acids
- tannins
- satins producing useful microorganisms during fermentation.
